	Unit Change

Identify and Explain the Changes Checked Above:

The proposed changes reflect updates in a number of aspects of the course. Such revisions have been presented and discussed within the ACEDD department staff as well as with industry representatives including architects and others within the AEC (Architecture, Engineering, & Construction) industry at our Industry Advisory Meetings.

The change in the course description is proposed to better identify the nature of the course as a focus on the technical

Do the changes being made to this course affect a currently offered degree or Certificate?

Yes

Explain:

The 1-unit increase results in changes but these will be reflected in proposed deg/cert changes.
